

Relief

Relief is Healthcare.
On your device. On your time.

To develop an innovative healthcare delivery platform that impacts every individual's ability to access healthcare in Louisiana.

This desire to create a fundamental shift in the care delivery ecosystem is what drives our passion to design, develop, and deliver a quality product.

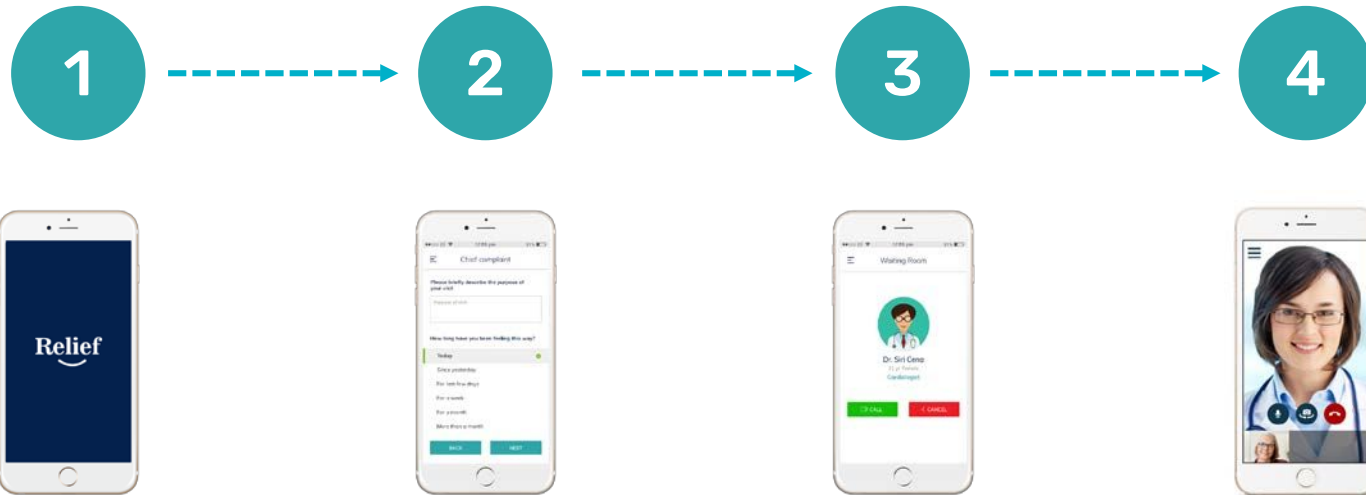

What is Relief?

Relief Telemed is a HIPAA-compliant, **on-demand, telemedicine platform** that connects patients to nurse practitioners who provide video consults 24 hours a day

How it works

Patient launches mobile app

Patient enters medical information

Patient matched with provider

Patient and Provider initiate video call

How it works

Prescriptions and labs can be ordered during the visit

What we treat
